

## What's Happening at MTS?

### Bottom Paint!

It's that time of year again! The weather is warming and the temperatures are right for scheduling your bottom paint now. Don't let the season get away from you and lose precious boating time. Our 30 ton travel lift at Skull Creek Marina can handle a vessel beam of 14'-9". *Save time and money...* Be sure to ask for an estimate for hull and topside detailing (buff/wax) while your boat is in our yard.

### Welcome "Pirate Plastics" to Our Neighborhood!

MTS would like to welcome Pirate Plastics to Hilton Head Island! Chuck and Kate Gambo come to us from Baltimore, MD and bring their expertise in Marine Plastics with them. Please stop by their new location (next to MTS) and say hello!
